Strategies to Support Your Struggling Student

For Parents and Educators

FEATURED SPEAKER:

CYNDY LEMYRE

Cyndy Lemyre, the Director at the Active Reading Center (ARC) became interested in teaching reading when she realized that many of her son's friends struggled to comprehend their school assignments. Over the last twenty years, Cyndy has taught hundreds of students, trained dozens of teachers, and assisted in developing the Reading Revolution™ Methodology. Today, her focus is to educate parents on how best to assist their children in developing early reading skills. It has been Cyndy's experience, that, with a strong foundation, children have the tools, confidence and desire to read and learn.

Learn more about ARC at www.activereadingcenter.org

TOPICS:

- ❖ Learn proven early reading strategies and tools for parents and educators.
- ❖ How to help students - even as young as 4 - learn and utilize letter sounds.
- ❖ Learn how to support your child's sight word learning.
- ❖ See how learning through movement can stimulate and assist a child's learning.
